- **UX Research & Strategy**

User Research, User Personas, Heuristic Evaluation, Affinity Mapping, Competitive Analysis, A/B Testing, Research Synthesis, Cognitive Walkthrough, Card Sorting.

- **UI & System Design**

Visual Design (Typography, Layout, Hierarchy), Design Systems, Component Libraries, Dashboard & Data Visualization Design, Workflow Design, Micro-Interactions.

- **Tools & Technologies**

Figma, Adobe XD, Adobe Creative Suite(XD, Photoshop, Illustrator) Notion ,Prototyping tools, Design system management, HTML,CSS,AI-assisted design tools

PROFESSIONAL EXPERIENCE

Innovatech Technology Solutions – UX Designer | Hyderabad Mar 2025– Present

Leading *UX design for enterprise SaaS and regulatory platforms* for clients including *Abu Dhabi Department of Energy (DoE) and TAQA Water Solutions*

- Designed end-to-end UX flows, wireframes, and high-fidelity interfaces for enterprise SaaS platforms serving regulatory and operational teams.
- Independently designed the ActiveProperties CRM platform, translating complex real-estate workflows into structured dashboards and user journeys for agents and administrators.
- Developed scalable design system components and UI patterns in Figma, improving cross-product consistency and accelerating design to development workflows.
- Translated complex regulatory requirements into intuitive dashboards and trackable UI components, improving compliance reporting clarity and operational accuracy.
- Designed data driven KPI dashboards for operational monitoring, reducing data interpretation time by ~30%.

- Collaborated with product managers, engineers, and stakeholders to deliver developer-ready designs and improve product delivery efficiency.
- Co-designed the TAQA Water Solutions compliance platform, structuring regulatory workflows that reduced missed submissions by 25–30%.
- Contributed to Abu Dhabi Department of Energy regulatory modules, simplifying multi-step licensing and inspection processes and reducing task completion time by ~25%.
- Leveraged AI-assisted design tools to accelerate ideation, prototyping, and UX research workflows.

Mindwave Solutions – UI/UX Designer | | Hyderabad | Remote Jul 2023 – Oct 2024

Designed digital platforms across SaaS, B2C, and B2B2C products, focusing on usability improvements and structured user journeys.

- Designed user flows, wireframes, and high-fidelity interfaces for web and mobile SaaS products in collaboration with product managers and developers.
- Translated product requirements into information architecture and intuitive user journeys to improve navigation and usability.
- Supported UX research and usability evaluations, using insights to refine design decisions.
- Iterated designs through prototyping and stakeholder feedback to improve key user workflows.
- Ensured accurate implementation of UI components and interaction patterns through developer collaboration.

KEY PROJECTS

Enterprise & Government Platforms

- **Abu Dhabi Department of Energy (DoE)**: Licensing, Compliance, Inspections, and Reporting modules
- **TAQA**: Wastewater management and compliance platform to track DOE license conditions, reporting workflows, and operational KPIs across treatment and distribution systems.
- **ActiveProperties** – Real Estate CRM (Independently Designed)
  End-to-end CRM platform for agent and admin workflows, including deal tracking and commission management.

SaaS & Platforms

- Real Estate CRM Ecosystem: End-to-end agent-first CRM platform
- CyberSkul: Cybersecurity SaaS platform

B2C & B2B2C Products

- Medical Share: Healthcare equipment rental platform
- Urban Nest Pro: Property management application
- Musidy: Music streaming platform
