ABOUT ME

Cut navigation complexity **35%** for a national government platform and accelerated regulatory decision-making **40%** for UAE Department of Energy leadership. UI/UX Designer with 2.7 years of experience designing enterprise SaaS, B2B, and government platforms across real estate, energy, healthcare, and the public sector — owns research, interaction design, and design systems for complex operational workflows. Specializing in enterprise SaaS and design systems.

EXPERIENCE

UX Designer — Innovatechs Technology Solutions, Hyderabad	March 2025 – May 2026
- Consolidated 70+ fragmented UAE government housing services into a single unified platform for MOEI, cutting navigation complexity 35% and eliminating the need for citizens to visit physical service centers. UAE Department of Energy (DOE) leadership gained real-time visibility into compliance KPIs through executive analytics dashboards, cutting regulatory decision-making time 40%. - Heuristic evaluations, cognitive walkthroughs, and usability testing across enterprise workflows lifted task completion rate 20% after iterating on the findings - Led an end-to-end redesign of a 100+ screen real estate CRM; agent workflow steps dropped 30%, speeding deal management for sales and admin teams - Brought AI-assisted ideation (Figma Make) into the design workflow, cutting exploration time 45% while holding production-ready fidelity and stakeholder trust.	
UI/UX Designer (Contract) — North North Software Solutions, Hyderabad	November 2024 – January 2025
- Simplified course discovery for CyberSkul, a course-selling SaaS platform, by designing the full onboarding, enrollment, and learning journey — delivered ahead of a fixed 3-month handoff deadline. - Responsive, interactive prototypes passed stakeholder validation on the first review cycle, keeping engineering handoff on schedule. - Built a scalable UI pattern library that cut implementation ambiguity for the in-house team after handoff.	
UI/UX Designer — Mindwave Solutions, Hyderabad	July 2023 – October 2024
- Redesigned end-to-end medical equipment rental workflows for patients, providers, and equipment owners — improved task completion efficiency by 15–20% through iterative design and moderated usability testing. - Designed responsive property management dashboards that streamlined tenant, maintenance, and admin operations, lifting workflow efficiency by ~20%. - Built a reusable component library and interaction standards adopted across products, cutting design redundancy by ~40% and accelerating feature delivery. - Redesigned music discovery and playlist flows, simplifying content exploration and increasing engagement through clearer navigation patterns.	

SKILLS

Core : Figma (Auto Layout, Figma Make), Design Systems, Interaction Design, Dashboard Design, Enterprise & SaaS UX

Proficient : User Research, Usability Testing, Heuristic Evaluation, Journey Mapping, Information Architecture, Accessibility (WCAG 2.2), Product Strategy

Familiar : Adobe XD, Photoshop, Illustrator, Framer, Motiff, HTML/CSS, JavaScript (basic), A/B Testing, JTBD, Competitive Analysis, Personas

Ways of Working : Agile, Stakeholder Management, Cross-Functional Collaboration, Problem Solving, Time Management

EDUCATION

Post Graduate Professional Program – UI/UX Design Specialization	2022 - 2023
ICAT Design & Media College. Hyd, Telangana	
Bachelor of Business Administration	June 2019 - May 2022
Jahanavi Degree & Pg College , Hyd - Telangana	
Transitioned from business strategy (BBA) into UX design through ICAT's specialization program — pairs stakeholder and business fluency with design execution.
