ABOUT ME

Product Designer with 2.7+ years delivering user-centered digital products across enterprise SaaS, government, healthcare, and real estate platforms. Recent work centers on two consecutive UAE government engagements (MOEI, Abu Dhabi DOE) and an independently owned real estate CRM redesign moving from a contract role into a full-time engagement with the same design partner as scope expanded. Skilled in UX research, information architecture, interaction design, and scalable design systems, with a track record of simplifying complex, data-heavy workflows for enterprise users.

EXPERIENCE

UX Designer — Innovatechs Technology Solutions, Hyderabad March 2025 – May 2026

Delivered end-to-end digital platforms for UAE government entities (MOEI & DOE) and an independently designed real estate CRM.

- Created a unified internal portal for MOEI spanning housing, land, and sea transport modules, improving cross-team workflow efficiency by 40%.
- Designed data-driven dashboards for Abu Dhabi DOE, enabling department heads to monitor key energy metrics and make faster operational decisions
- Raised usability and accessibility through iterative user testing, cognitive walkthroughs, and heuristic evaluations — a 20% increase in task completion rate.
- Owned end-to-end UX for ActivProperties, a real estate CRM covering agent and admin workflows, deal tracking, and commission management, including full information-architecture rebuild and a 50+ screen, dev-ready design system.
- Used AI-assisted design workflows (Figma Make) to accelerate procurement-platform ideation, cutting initial exploration time and converting AI-generated concepts into implementation-ready screens.

Product Designer (Contract) — North North Software Solutions, Hyderabad November 2024 – January 2025

Short-term engagement to design UX for CyberSkul, an online course-selling SaaS platform, ahead of a planned handoff to an in-house team.

- Designed end-to-end user flows for course browsing, enrollment, and account management.
- Delivered responsive UI and interactive prototypes for the web platform within a 3-month scope.
- Worked closely with developers to ensure a clean design-to-development handoff at contract close.

UI/UX Designer — Mindwave Solutions, Hyderabad July 2023 – October 2024

Designed UX for multiple B2C and B2B2C products across healthcare, real estate, and media.

- Led UX for Medical Share, a peer-to-peer medical equipment rental platform, from discovery through usability testing with cross-functional stakeholders.
- Designed Urban Nest Pro (property management) and Musidy (music streaming), covering responsive web and mobile UI.
- Built and maintained reusable UI components and interaction patterns to keep design consistent across products.

SKILLS

UX & Design : User Research, User Flows, Journey Mapping, Wireframing, Prototyping, Interaction Design, Information Architecture, Usability Testing, Heuristic Evaluation, Design Systems, Accessibility (WCAG), A/B Testing, Dashboard Design, SaaS UX, Enterprise UX, Data-Driven Design

Tools : Figma, Adobe XD, Photoshop, Illustrator, Framer, Notion, HTML, CSS, JavaScript (Basic), Figma Make, Motiff, ChatGPT & Claude (AI-assisted workflows)

Additional Skills : Agile Methodologies, Stakeholder Management, Cross-Functional Collaboration, Problem Solving, Time Management
